

# International Society for Biophysics and Imaging of the Skin

World Congress, Sept 24-26<sup>th</sup>, Buenos Aires Argentina  
 "New Insights on the visible and the invisible skin"

## Final Scientific program (poster session)

oral / poster	N°	authors	title	country
poster	P01	SHIMIZU, Norio	measuring the thickness of the stratum corneum by raman spectra	Japan
poster	P02	PITTET Jean-Christophe	Image analysis and comparison of confocal laser microscopy and dermoscopic imaging for the evaluation of a whitening product on lentigines of asian women	France
poster	P03	LEE, Onseok	Parameter Selection for graph cut based stereo image of skin wrinkles	Korea
poster	P04	LEE, Gunwoo	Relative Color assesment of dermoscopic features using multilevel thresholding for computer aided diagnosis	Korea
poster	P05	WHITEHEAD, Sarah	Enabling Consumer & Clinical Research Worldwide: autmated Imege analysis of Maximum Facial Area	United States
poster	P06	WON NAM, Gae	Method for evaluating the effect of fermented tea on temperature of cold hands and feet	Korea
poster	P07	WORSTMAN, Ximena	Sonography of cutaneous cosmetic materials	Chile
poster	P08	PITTET Jean-Christophe	Image analysis of confocal laser microscopy for studying the evolution of the superficial part of the reticular dermis with the age	France
poster	P09	SAINTHILLIER Jean Marie	Assesment of erythema and pigmentation with spectral and digital measurements	France
poster	P10	SAINTHILLIER Jean Marie	Assesment of skin homogeneity by image processing	France
poster	P11	HUMBERT Philippe	Skin sebum excretion and sleep apnea	France
poster	P12	HUMBERT Philippe	Biometrological assesment of sweat secretion. Clinical study of oral oxybutynin in primary hyperdydrosis	France
poster	P13	HUMBERT Philippe	Biometrological evaluation of three skin graft models	France
poster	P14	HUMBERT Philippe	Torquemeter test for evaluaion of skin properties: a new interface between device and skin	France
poster	P15	HUMBERT Philippe	Confocal microscopy study on skin of patients affected with nephrologic diseases	France
poster	P16	CAMPOS, Patricia	Assesment of protective effects of cosmetics with UV filters, vitamins, ginko biloba and red alga extracts using biophysical and skin image techniques	Brazil
poster	P17	MURAKAMI, Motoko	Characteristics of Facial morphology with aging and focus on sagging	Japan
poster	P18	WILHELM, Klaus Peter	Human Model to Study 1st Degree Burn	Germany
