

POSTERS

Thursday June 11th, 2026

10:30 – 11:30

Poster#	Title	Presenting Author
P-01	Nanoscale Assessment of Dermal Collagen in Ehlers-Danlos Syndrome	Neshatian
P-02	Metabolic Multiphoton FLIM Tomography of Skin	König
P-03	Multiphoton Tomography and FLIM Imaging of Skin Microbiota: Visualization of Pseudomonas, Staphylococcus and C. acnes in vitro and on ex vivo Skin	Infante
P-04	Synchrotron-Based Phase-Contrast Hard X-Ray Microscopy for the Evaluation of Fungal Invasion Patterns in Tinea Capitis	Ha
P-05	Interactive Effects of Melanin, Anatomical Site, and Wavelength on Depth-dependent Resolution in in vivo Laser Scanning Microscopy	Yang
P-06	Annotation Efficient Global View Vitiligo Segmentation via Scribble Guided Weak Supervision	Wang
P-07	Olfactory Sensing of Cutaneous Malignancies: A Quantitative and Multimodal Approach to Skin Cancer Detection	Dorado-Cortez
P-08	Characterization of Palpatory Sensory Information in Dermatologists and Medical Students: Effects of Age, Sex, and Medical Glove Use	Velia
P-09	Diagnostic Accuracy and Technical Usability of Real-Time Three-Dimensional Skin Scanning System in Tele dermatology	Park
P-10	Objective Assessment of Tear Film Parameters After 21 Days of Eye Care Product Use: A Prospective Observational Study	Perez Damonte
P-11	Efficacy of a Gel-Cream Formulation with Babassu Oil in the Improvement of Skin Hydration and Protection by Instrumental Measurements	Navarro

P-12	Clinical Efficacy of Cosmetic Formulations Containing a Blend of Mediterranean Extracts for Hyperpigmented Skin of the Face and Axillary	Navarro
P-13	Clinical Study combining Confocal Microscopy and Bioinformatics Demonstrates the Ability of a Regenerative Miniprotein to Reverse Markers of Epidermal Senescence	Chajra
P-14	Beyond the Surface: Quantifying the Impact of an Anti-aging Skincare Routine using Advanced LC-OCT and Artificial Intelligence	Kemel
P-15	Surface and Subsurface Continuity of Skin and Mucosa Revealed by Quantitative Multimodal Imaging	Dorado-Cortez
P-16	Advancing Automated Annotation-Free LC-OCT Image Segmentation for Quantitative Multiethnic Studies of Facial Skin Aging	Bonnier
P-17	Skin Tension: A Key Factor to Reverse Aging	Couturaud
P-18	Facial Skin Tension Line Topology and Anisotropy in different age	Fanian
P-19	Clinical Validation of an Imprint-Derived Skin Tension Index Using Non-Surgical Facial Lift	Rigal-Dachaud
P-20	Chemical Transduction in Skincare: Modulating Skin Tension in the Superficial Dermis	Cazorla
P-21	How Tension Modify the Collagen and Elastin Network of a Skin Explan	Segain
P-22	Contact and Non-Contact Techniques for Skin Mechanical Properties on Different Facial Zones	Fanian
P-23	The Epidermal and Dermal Microstructure of the Face in different age groups using Line-Field Confocal Optical Coherence Tomography (LC-OCT)	Fanian
P-24	Comparative Study on the Impact of Intrinsic Skin Aging on Skin Basement Membrane: A Multi-modal Analysis Based on Non-Invasive Imaging and Histology	Jin
P-25	In vivo Evaluation of Blue Light–induced Oxidative Stress using an Electrochemical Skin Sensor: a Clinical Exploratory Study	Sirvent

P-26	Skin-Interfaced Wearable Devices in Dermatology: Current Applications, Key Challenges, and Future Directions	Yiqiong
P-27	Efficacy of Dermocosmetic Formulations for Scalp and Skin Containing Olive Leaf Extract	Castro
P-28	Clinical Effects of a 0.5% Selenium Sulfide Shampoo on Dandruff and Scalp Microbiota in Adolescents: A Prospective Single-Arm Clinical Study	Jiang
P-29	Spatial Bacterial Analysis in Human Sebocytes and Full Sebaceous Glands, reveals Strong Localization of <i>C. acnes</i> to the Active Areas of the Pilosebaceous Unit and Promotion of Lipid Production whereas <i>S. epidermidis</i> Reduces Cellular Activity	McGuckin
P-30	Mechanical Stability of 1500-year-old Human Hair: Evidence from Coptic Mummies	Vargiolu
P-31	In Vivo Atlas of Human Finger Biophysical Properties for Objective Touch Assessment	Vargiolu
P-32	In vivo Measurement of Lipstick Glide and Comfort using Friction and Vibrational Analysis	Vargiolu
P-33	Effects of Psychological Stress on Skin Surface Lipid Metabolism and Identification of Related Biomarkers	Ru
P-34	Safety and Efficacy of one Physical Sunscreen After Gold Microneedle Radiofrequency Treatment: A Split-Face Clinical Trial	He
